If you are one of those anti-fur campaigners who have sworn not to dress-up in animal fur no matter how Diva like you may look into it then how about these faux fur jackets for a sensational impact wherever you go! [GlowFur](#) fashion apparel is made up of faux fur with special internal lighting technology to make you stand-out from the crowd. The FlowFur apparel line includes jackets, sweaters, vests, club wear and long coats. The long coats are the costliest for \$975. So, if you don't mind dressing-up anyways just to grab attention then these funky coats are just for you and in case this seems to be going pretty overboard then you can even settle with the [illuminated handbag](#), we told you about earlier.
